MADE IN FLORIM

FLORIM È CERTIFICATA B CORP

FLORIM IS
B CORP
CERTIFIED

Guardiamo al business come una forza positiva in grado di generare profitto e allo stesso tempo creare un impatto virtuoso sulle persone e sull'ambiente. Da sempre.

Le nostre scelte, giorno dopo giorno, ci hanno portato a migliorare il nostro modo di fare impresa.

We conceive the business as a positive force able to generate profits and at the same time create a virtuous impact on people and the environment. Since forever.

Our choices, day after day, have led us to improve our way of doing business.

COSA SIGNIFICA ESSERE B CORP?

Ci siamo misurati con i **più alti standard di performance sociale e ambientale** e dopo un lungo e rigoroso processo di verifica **siamo diventati B Corp.**

Le aziende che riescono a ottenere questa certificazione sono le più evolute al mondo in termini di impatto positivo sia sociale che ambientale.

Costituiscono un movimento globale di 'Purpose Driven Businesses' che ha l'obiettivo di diffondere un nuovo **paradigma economico**, che vede le imprese come protagoniste nel **rigenerare la società.**

Corporation

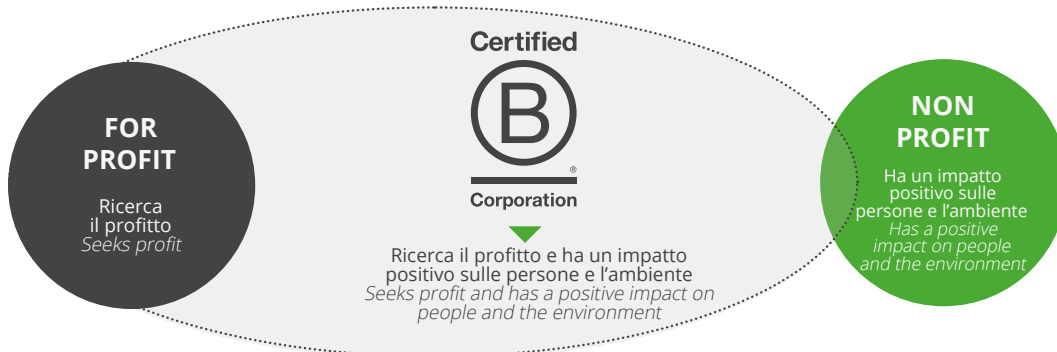

Guarda il video *"Essere sostenibile è una scelta quotidiana"* con i volti di alcune delle "persone Florim" che ogni giorno contribuiscono a rendere l'azienda sempre più responsabile.
Watch the video "Being sustainable is a daily choice" with the faces of some of the "Florim people" who contribute to making the company even more responsible, every day.

WHAT DOES IT MEAN TO BE B CORP?

We vied with the **highest social and environmental performance standards**, and after a long and scrupulous verification process, **we became B Corp.**

Companies that succeed in obtaining this certification are the most evolved in the world in terms of their positive social and environmental impact.

They constitute a global movement of 'Purpose Driven Businesses' whose aim is to diffuse a **new economic paradigm**, whereby companies are the drivers of **social regeneration.**

BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte. Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere.**

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative companies**. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così il Gruppo Florim rientra tra le 3.700 B Corp al mondo.

Sono oltre 140.000 le aziende che stanno cercando di ottenere la certificazione, nel rispetto di **severissimi standard di trasparenza e sostenibilità.**

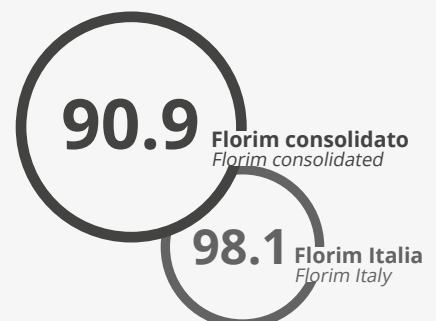

Solo il 3% riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim Group is now one of the 3,700 B Corps throughout the world.

More than 140,000 companies are currently seeking to obtain the certification **in compliance with the strictest transparency and sustainability standards.**

Only 3% manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

Stories of Senses

Stories of Senses

L'incontro tra il design creativo di Casa dolce Casa Casamood e lo stile progettuale di Matteo Thun dà origine alla collezione "Sensi". Da questo dialogo, nasce un progetto che sintetizza l'armonia della natura e la forza dell'innovazione.

La collezione sorprende il tatto e la vista con piacevoli toni neutri per ricreare spazi fluidi. Superficie e giochi di luce definiscono un concept decorativo ispirato al non colore e alla granulosità della terra. Sensi esprime la tattilità delle terre naturali, di leggere essenze minerali

che si mischiano e si forgianno nel tempo, proponendo una matericità da toccare con gli occhi. Solida, vigorosa e concreta, la terra rimanda ad un sentire personale, alla forza della natura.

La morbidezza dei colori naturali e la sensazione tattile delle sabbie richiamano uno stile di vita semplice, volto ad abbandonare il superfluo. L'intima e raffinata armonia della natura si rispecchia in spazi abitativi in cui godere di un comfort personale e di ritmi lenti, per ritrovare energia ed equilibrio.

The Collection P. 69

Casa Dolce Casa Casamood creative design and the interdisciplinary approach of Matteo Thun shape the "Sensi" collection. This dialogue yields a project that merges the harmony of nature with the strength of innovation. The collection surprises visually and tactilely with attractive neutral shades that shape fluid spaces. Surfaces and interplays of light define a decorative concept inspired by non-colour and the graininess of earth. Sensi embodies the tactile experience of touching earth, and of interpreting mineral essences mixed and forged over time, in a material texture to be caressed with the eyes. Solid, vigorous and concrete, earth evokes in us a personal sentiment, reminding us of the strength of nature. Delicate, natural colours and the tactile experience of sand recall a simple lifestyle that leaves the unnecessary behind. The intimate, sophisticated harmony of nature is reflected in living-spaces that offer an individual sense of comfort and slow rhythms, where energy and balance can be regained.

De la rencontre entre le design créatif de Casa dolce Casa Casamood et le style conceptuel de Matteo Thun naît la collection « Sensi ». Ce dialogue évolue en projet qui synthétise l'harmonie de la nature et la force de l'innovation. La collection surprend le toucher et la vue avec de superbes tonalités neutres pour donner lieu à des compositions fluides. Les surfaces et les jeux de lumière forment un concept décoratif inspiré de la « non-couleur » et de la granulosité de la terre. Sensi exprime la tactilité des terres naturelles, d'essences minérales légères qui se mélangent et se forment au fil du temps, pour offrir un effet de matière à toucher avec les yeux. Solide, vigoureuse et concrète, la terre renvoie à un sentiment personnel, à la force de la nature. La douceur des couleurs naturelles et la sensation tactile des sables font penser à un mode de vie simple, visant à abandonner le superflu. L'harmonie intime et raffinée de la nature prend forme à travers des lieux d'habitation où profiter d'un confort personnel et de rythmes lents, pour retrouver énergie et équilibre.

Die Begegnung zwischen dem kreativen Design von Casa dolce Casa – Casamood und dem unverkennbaren Stil von Matteo Thun führte zur Entwicklung der Kollektion „Sensi“. Aus diesem Dialog entwickelt sich ein Projekt, das die Harmonie der Natur mit der Kraft der Innovation vereint. Die Kollektion überrascht durch Haptik und Optik. Die angenehm neutralen Töne lassen fließende Räume entstehen. Oberflächen und Lichtspiele definieren ein dekoratives Konzept, das von der Nichtfarbe und der Körnigkeit der Erde inspiriert ist. Sensi bringt im Materialbild die mit den Augen fühlbare Haptik natürlicher Erden, leichter mineralischer Essenzen, die sich vermischen und mit der Zeit verschmelzen, zum Ausdruck. Beständig, kraftvoll und konkret verweist die Erde auf ein persönliches Empfinden, auf die Kraft der Natur. Die natürlich weichen Farben und die Haptik des Sandes erinnern an einen einfachen Lebensstil ohne Ballast. Die vertraute und verinnerlichte Harmonie der Natur spiegelt sich in Wohnräumen wider, die individuelles Wohlbefinden und langsame Rhythmen vermitteln, um wieder Energie und Gleichgewicht zu finden.

El encuentro entre el diseño creativo de Casa dolce Casa Casamood y el estilo proyectivo de Matteo Thun da origen a la colección "Sensi". De este diálogo nace un proyecto que sintetiza la armonía de la naturaleza y la fuerza de la innovación. La colección sorprende al tacto y la vista con agradables tonos neutros para recrear espacios fluidos. Superficies y juegos de luz definen un concepto decorativo inspirado en el "no color" y en la granulosidad de la tierra. Sensi expresa el tacto de las tierras naturales, de ligeros elementos minerales que se mezclan y se forjan con el paso del tiempo, proponiendo una materialidad que tocar con la mirada. Sólida, vigorosa y concreta, la tierra remite a un sentir personal, a la fuerza de la naturaleza. La suavidad de los colores naturales y la sensación táctil de la arena evocan un estilo de vida sencillo, orientado a abandonar lo superfluo. La armonía íntima y refinada de la naturaleza se refleja en espacios habitables en los que disfrutar de un confort personal y de ritmos lentos, para recobrar energías y equilibrio.
