**Note on Polished and Velvet surface finish / Nota sulla finitura Lappata e Velvet. pag.92**

The Polished and Velvet finishes are suitable for residential or low-traffic commercial floors, where no anti-slip performance is required. If the product is in direct contact with the outdoors, moisture and dirt absorption devices must be used to prevent scratching. The glossy Polished finish offers a surprisingly bright, mirrored surface with slight irregularities typical of natural marbles. The surface's shine and great ease of cleaning are the result of in-depth studies and technical research aimed at ensuring its durability over time. The Velvet surface replicates the effect of semi-Polished marble. It has a velvety touch and silky highlights. The natural character of the surface is highlighted by areas of different opacity perceptible in oblique or reflected light. Le finiture Lappata e Velvet sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi. La finitura Lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. La superficie Velvet replica l'effetto di un marmo levigato. Si distingue per la mano vellutata e per i riflessi semi-opachi. La naturalezza della superficie è evidenziata da zone di diversa opacità percettibili in luce radente o riflessa.

Metal insert. We recommend use of a neutral detergent. Do not use acid, alkaline or waxing products or metal scouring pads. Detergents may cause a light loss of colour of the metallic insert, due to either repetitive use or too long contact time.

Inserto metallico. Si consiglia l'utilizzo di un comune detergente neutro, evitare l'utilizzo di prodotti acidi o alcalini, ceranti e pagliette di metallo. I detergenti, anche di uso comune, possono portare ad una leggera perdita di colore della bacchetta stessa, o per uso ripetuto o per tempo di contatto troppo elevato.

# Velvetech

Velvetech tecnologia

Velvetech is the new technology with an Italian patent inspired by the effect of sanding on the surface. Velvetech has silk-like reflections and a velvety soft hand. The naturalness of the surface is emphasised by areas of different opacity that contribute to the depth of the surface.

Velvetech è la nuova tecnologia con brevetto depositato in Italia ispirata all'effetto della levigatura sulla superficie. Velvetech si presenta con riflessi che ricordano la seta e una mano vellutata e morbida. La naturalezza della superficie è evidenziata da zone di diversa opacità che contribuiscono a dare profondità alla superficie.
